

Join us for the exciting opportunity to explore the many electives that WCSD offers! This is an opportunity to learn about fun and interesting classes, ask questions to those who teach the course, develop an educational plan, and select class options to take next year. Electives are more than just a requirement- they will give you educational fulfillment!

Mark Your Calendar!

WCSD Virtual Electives Fair is on Wednesday, January 27th with two sessions: 1:25 PM to 2:25 PM and 6:00 PM to 8:00 PM. Attend with your friends for the afternoon session and with your family for the night session!

Check Out the Site

See the list of departments that will be at the virtual fair. Check out the Elective Fair Google Site for the Google Meet link you will use, along with some fun information about the courses so you can learn more. Make a note or “favorite” the ones that sound interesting.

Create Your Itinerary

Prior to the start of the event, have a list of elective sessions you would like to attend. Create a schedule for yourself with questions to ask each teacher. Having a plan is a great way to get the most out of this event!

Enter the Meet Politely

There may be students already in the Google Meet asking questions- if so, come in quietly and wait to be addressed by the teacher. You can give a wave hello! You will have the teacher’s attention shortly.

Your Room On Camera

If you’re using a camera, be aware of what others can see. Use a Meet background if you’d like to keep your surroundings private. Also, a quiet room will be less distracting for you to have a great conversation.

Show Your Best Self!

Make a good impression. Be comfortably dressed, but maybe not pajamas. Teachers love meeting students new to them and will ask you questions. Think about how you will introduce yourself and what you want to say. Come prepared with questions to ask.

Ask Questions

This Virtual Electives Fair is for YOU so feel comfortable and confident asking questions. What prerequisites does a class require? Are assignments more project-based or test-based? Is the course open to all grade levels? How will this elective prepare me for a college major and/or career path? What have previous students thought of the class?

Invite An Adult

Having a parent or other adult attend with you can be fun and helpful. Log in separately, and attend side by side! They’ll be so proud that you are invested in your future!

Follow Up

Did you meet a teacher who had great things to say? Make a note of their name to follow up directly if you wish. Start making connections- hopefully they will be your teacher next year!

Code Of Conduct

As always it is our expectations that you will adhere to the WCSD Code of Conduct. Thank you!
