

# Resource Room Syllabus

## Course Objectives:

In this course we will:

1. build skills based on student IEP goals and objectives.
2. increase student ability and confidence in core academic areas.
3. support student mastery of the NYS standards.
4. develop or enhance a system of organization and self-discipline.

## Class Expectations:

1. Give your best effort.
2. Be on time and prepared to work. Always have a pencil/pen with you and bring any work you may need help with.
3. Be courteous and respectful at all times.
4. Stay on task throughout the class.

## Grading:

Numerical grades will not be awarded for Resource Room students. Comments reflecting effort and participation will be noted on progress reports and report cards. Parents will also receive an IEP progress report each quarter that will contain evaluations of student IEP goals.

## Homework:

There will be no homework assigned in Resource Room; however, students will have regularly assigned homework given by their team teachers. It is very important that students try every homework assignment and make corrections as needed. I will commit a portion of class to supporting students with any questions regarding assignments.
